Tristan Oshier

Frontend Software Engineer

Indianapolis, IN 46032 | 317-697-1411 | Tristan.oshier2000@gmail.com

Summary

Ambitious software developer who is passionate about lifelong learning, continuous development, and problem solving. My experience in the field has taught me to meet tight deadlines while applying my understanding of common web technologies, languages, and frameworks. I'm looking for a company that values their culture and impacting people so I can continue to grow as a developer.

Experience

SOFTWARE DEVELOPER | 07/2020 to Current
TCC Software Solutions - Indianapolis, IN

- Worked as a full-stack developer on a multi-tier application while utilizing Agile SCRUM methodologies on a daily basis.
- Gained experience working in C#, .NET Framework, Angular, TypeScript, Microsoft SQL Server, and Team Foundation Server.
- Was required to meet deadlines and maintain awareness of sprint schedules while participating in a collaborative development environment.

LEARNING ASSISTANT | 10/2020 to 05/2021
Eleven Fifty Academy - Indianapolis, IN

- Primarily taught JavaScript, TypeScript, HTML, CSS, React, Postgres, and Express to students over a six month period.
- Devised special strategies for reinforcing material or skills based on needs, interests and abilities of individual students.
